Education

Dharmsinh Deasi University CPI: 7.16	2022-Present Nadiad, Gujarat
Gyanmanjari Vidyapith(GHSEB) Percentage: 85.00%	2021-22 Bhavnagar,Gujarat
Gyanmanjari Vidyapith (GSEB) Percentage: 89.83%	2019-20 Bhavnagar,Gujarat

Projects

DocElex: Student Document Management System MongoDB, Express.js, React.js, Node.js, Vite, Cloudinary, JWT 
- Developed a production-ready Student Document Management System using the MERN stack to centralize and secure academic records. - Built a secure document vault with PDF/Image validation using Multer and Cloudinary integration, protected by JWT-based authentication. - Designed an analytics dashboard using Ant Design and Recharts to visualize compliance metrics and document completion rates. - Implemented audit logging and export functionality for generating student records in Excel, CSV, and PDF formats.
OHRM: Online HR Management System MongoDB, Express.js, React.js, Node.js, Tailwind CSS, JWT, Nodemailer 
- Developed a full-stack HR Management System with role-based dashboards for HR administrators and employees. - Implemented secure JWT authentication and password recovery workflows using Nodemailer and SMTP services. - Built payroll and attendance modules with automated salary processing and downloadable PDF payslip generation. - Designed leave management and announcement systems with validation rules and workflow automation.
Dental Clinic Management System React, TanStack Start, Supabase, PostgreSQL, Twilio, Vercel 
- Developed a full-stack clinic management platform using React, TanStack Start, and Supabase to streamline appointment workflows. - Integrated Twilio WhatsApp and SMS APIs for automated appointment confirmations and patient notifications. - Implemented QR-code-based appointment tickets with print-optimized layouts for ticket generation and verification. - Built persistent appointment tracking using LocalStorage, enabling patients to check booking status without login credentials.

Technical Skills

Languages: JavaScript, TypeScript, SQL, C++, C, Python
Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Tailwind CSS, Ant Design
Databases & Cloud: MongoDB, PostgreSQL, Supabase, Cloudinary
AI/ML: Machine Learning Fundamentals, Natural Language Processing (NLP), Generative AI, Prompt Engineering
Developer Tools: Git, GitHub, VS Code, Postman, Linux Shell
Coursework: DSA, DBMS, OOP, Operating Systems, Computer Networks
Soft Skills: Problem Solving, Communication, Teamwork

Highlights

- Built 4+ end-to-end full-stack applications using React.js, Node.js, Express.js, MongoDB, PostgreSQL, and Supabase. - Designed secure and scalable systems featuring JWT Authentication, RBAC, cloud-based file storage, and automated reporting. - Implemented document management, payroll automation, appointment booking, QR-based verification, API integrations, deployment, and database-driven business applications.
